Course Outcomes

At the end of the course, the student will be able to:

Understand the sensor and communication technologies.

☐ ☐ Apply the various ITS methodologies

☐ ☐ Define the significance of ITS under Indian conditions

CIE marks for the theory component are **25 marks** and that for the practical component is **25 marks**.

- 25 marks for the theory component are split into **15 marks** for two Internal Assessment Tests (Two Tests, each of 15 Marks with 01-hour duration, are to be conducted) and **10 marks** for other assessment methods mentioned in 22OB4.2. The first test at the end of 40-50% coverage of the syllabus and the second test after covering 85-90% of the syllabus.
- The student has to secure 40% of 25 marks to qualify in the CIE of the theory component of IPCC.
- The laboratory test (**duration 02/03 hours**) after completion of all the experiments shall be conducted for 50 marks and scaled down to **10 marks**.
- Scaled-down marks of write-up evaluations and tests added will be CIE marks for the laboratory component of IPCC for **25 marks**.
